

# Lessons in Cool

## Verse 1

Look at him overdoin' it now  
Shoot someone get this boy a cup of settle down  
Thinking too hard about looking too good  
Makes you act all better than you probably should  
I say be comfortable  
Relaxed and approachable  
If someone steps up pulling attitude  
Well that's their problem  
Too many cups of rude  
Its that little something some people got  
Friends automatic way too hot  
You don't have to be a model  
Make em wanna follow  
Work with what you got with confidence  
Like a big shot  
Stay up and you'll attract - magnets  
Take a picture upload it - tag it  
You'll see you can live like a dream  
When you're cool with yourself and stay nice not mean
